STATINTL

MEMORANDUM FOR: [REDACTED]

SUBJECT : [REDACTED]

STATINTL

1. Project [REDACTED] which has now grown to cost about \$600,000 a year, was approved by the Deputy Director this week.

2. In examining this Project it occurred to me that the Management Staff should look into it, not only with a view to determining whether or not it was set up and managed on a sound organizational and general administrative basis, but, also, to insure that needless duplication did not exist between it and the Office of Training. General Cabell concurred in this suggestion.

STATINTL

3. Inasmuch as you are now looking at the Office of Training, it would seem desirable to look into [REDACTED] also at an early date.
